

AllFlex™ 302 Stainless Steel Fasteners

High performance in aluminum applications

302 stainless steel thread-cutting/self-tapping fasteners with Stalgard® GB coating to prevent galvanic reactions and increase corrosion resistance.

Specifications:

- Diameters: #10 – 1/4"
- Head Styles: Hex washer, pan, flat and flat undercut
- Drive Systems: Hex washer and phillips
- Thread/Point Styles: Type F, B or AB
- Material: 302 stainless steel
- Finish: Stalgard GB (Galvanic Barrier) coating

Benefits

- Roll-form or cut own mating threads in aluminum components to eliminate tapping operations and speed installation
- Stalgard GB coating prevents galvanic reaction between stainless steel fastener and aluminum components
